**BRIDGE BEING RECONSTRUCTED;
REPAIRS AT MARINE ENGINES**

REBUILDING OLD RIVER BRIDGE -- Scanteia, No 1371, 10 Mar 49

Reconstruction of the bridge which carries the highway traffic of the Micronesia Chuco-Odomei National Highway over the Olt River will be completed shortly. When the work was begun in November, it was estimated that 100 tons of new metal construction would be required, but workers and engineers have salvaged so much material from the old bridge that only 4 tons of new metal pieces will be needed. The reconstruction work is being done by Group 4 of the Metal and Reinforced Concrete Bridge Construction Service.

MARINE ENGINES MUST BE DECLARED -- Universal, No 59, 12 Mar 49

The Ministry of Communications has notified all owners of marine engines or any sort of maritime equipment that they must register these articles with the captains of the ports or, in Bucharest, with the Administration of the Merchant Marine before 31 March 1949. None of this material may be exported without due approval of the Ministry of Communications. Violation of this notice will constitute an act of sabotage.
